MICHEL MONTECROSSA'S FUTURIST
COURAGE & LOVE CLIMATE CHANGE MUSICAL

MICHEL MONTECROSSA
ON HIS COURAGE & LOVE CLIMATE CHANGE MUSICAL
'THE HOUSE OF TIME – PART I: EVERY MOMENT'

"With THE HOUSE OF TIME I again go beyond orthodox borders of movie-making.

THE HOUSE OF TIME is revelling as fullstream movie far beyond the mainstream through vision, limitlessness and ecstatic inspiration as well as inner balance and a fine sense for revelation.

THE HOUSE OF TIME is the photonic presentation of passionate heights and depths, intense tenderness, powerful contradictions and intuitive logic.

THE HOUSE OF TIME is an epic stream of consciousness movie showing through the personage of Cyberwarrior Michel the universal way of consciousness.

THE HOUSE OF TIME shows the first steps of the child, the search for identity and the inner revolutions of a man born free and provocatively stepping beyond the judgement of others and seeing the general stupidity as the fertile base for the future.

THE HOUSE OF TIME makes the onlooker into a participant in the wrestle of the genius with the art of life through experience and the conquest of the irrational. Cyberwarrior Michel from the beginning is a surrealist who through acceptance of the total, uncontrollable adventure is moving into the equally total, uncontrollable and limitless virtuality, the higher form of virtual reality. There he becomes Cyberwarrior Champ by no longer accepting the restrictions coming from slogans and declamations that in the end only make clear that basically all are babbitts. The surreal wading through the mud of the world changes into bathing in the cybernetic gold of virtuality. The pretension of the limits is transformed into bliss of the non-paranoid, the sadistic-masochistic abstraction of relationships into the ecstatic-sensual fusion of souls.

THE HOUSE OF TIME is filled with the carelessness that equally unifies belief and non-belief in the angelic reflex of mortality as it can unify love and music in the immortality of the masculine-feminine myth embedded in the depth-consciousness. Cyberwarrior Michel experiences this myth through the psychic projection of his feminine side in the personifications of Mystery and dream-born Hazel. Through them and other female personifications of his inner world he is able to weld the waking consciousness and the depth-

consciousness into a comprehensive whole and thereby becomes Cyberwarrior Champ. On this level his consciousness expands and organic reality, or organicality, becomes one with virtual reality, or virtuality, in the multi-dimensionality of the Timebody. Michel's aspiration for becoming Cyberwarrior Champ originally was motivated by the desire to gain greater strength for joining the Mars Revolution and to return to his Marsian girlfriend Omega. But by mastering the uncertainty-principle unexpectedly a totally different déjà-vu way of life opens up so that Michel as Cyberwarrior Champ now is able to not only move in a non-linear way through time and to find and begin to comprehend 'The House Of Time', but also makes a mysterious 'Sky-City' appear in virtuality world which through overlapping is connected with the organic world. Through Sky-City, where Cyberwarrior Champ Michel is establishing a new identity as singer and songwriter, he can, with the help of music and Sky-City Radiogirl Astrid's hidden messages define the hyper-neurotic condition of the organic and virtual world in a greater consciousness and can begin to change it for the better. In this crucial moment Michel finds the real embodiments of Mystery and Hazel and together with them is forming a band. But in reality it is the unification of soul, dream and future – a unification emanating an energy that is all-surpassing. Good and evil dissolve into the mystery of the Timebody and become the multidimensional happening of the world being right in the middle of a humanitarian, economical and ecological crisis. Organic and virtual love affairs are leading to free movement within the Timebody through which all can be changed. The Dionysian embodiments and multipersonalities of Cyberwarrior Michel, his Avatar Mike, his female self-realizations Mystery, Hazel and the Lady From The Sun lead, through the interaction with the virtual personalities of Wanda the Sky-City Girl, Ilona the Sky-City Enchantress, Astrid the Sky-City Radiogirl, Omega the Marsian girlfriend of Michel, Wagner the House of Time Magician, Zack the House of Time Narrator, Rachel the Sky-City Warrior Girl and the many other Sky-City inhabitants, to the liberation from the fear that declares living beings in front of the cosmos to be meaningless. The orphic mystery of music as much as the mystery of courage is born from love, is emanating from the infinity-center that is generating the entire cosmos and all its universes. The total play therefore is an infinite futurist Courage & Love Climate Change Musical that unfolds in addition to all other actors, hyper-esthetic energy as geometric

abstraction, Pop-Art, Op-Art and psychedelic art through the figures of Crystal the House of Time Archangel, Angel the Timebody Girl, Hussein the agent and dancer and Alvin the Sky-City Dragon as much as through the Unknown Woman who, without being part of the story, still is coming from the same origin. All is based on consciousness and thus the House of Time is no dead bull carried out of the arena by mules but a helicopter reborn from flames. The Unknown Woman says: 'Don't worry. Tomorrow is always the day after the one before.'

THE HOUSE OF TIME is the continuous sublimation of a series of symbols and interpretations on all levels of the images, words, white leaves, sounds and the music.

THE HOUSE OF TIME is the subconscious, the hidden, the passing as well as the highest point, the most exalted and the most angelic. Cyberwarrior Michel sings: 'We live in a fragmented world, a world of walled in islands in an ocean we do not comprehend the way it is. On one of these islands is the House of Time.'

The Lady From The Sun says: 'You come from a place in the future and you moved from there into the now. You didn't come from the past... Time is a body. It is the Timebody. You can move on it in any direction.' Michel muses: 'Lovemakin' is like that. It is neither past, present or future. It is where it is and can expand indefinitely.'

And Zack, the House of Time Narrator says: 'See the clitoral climax of 25 frames. Feel the stream of consciousness erection.'"

LIVING THE EXPERIENCE

MICHEL MONTECROSSA'S
MIND-BLOWING OVERGROUND MUSICA

'Living The Experience' is Cyberrocker Michel Montecrossa's fascinating 21st Century Overground Musical.

It is the stunning Free Cinema expression of Non-Conformity, Creative Abundance and Joy.

'Living The Experience' is the musical story of the triumph of Love and Beauty over dehumanizing massimprisonment in illusions and unconsciousness.

MICHEL MONTECROSSA ABOUT 'LIVING THE EXPERIENCE':

"'Living The Experience' is visualized as a 21st century Space-Age-Viking-Style-Saga. It is an Overground Musical, meaning the futuristic way of expressing the same meaning as did the mystic chants of the Heroic Age.

The title-sequence leads into a wide virgin snowfield. The heroes of the movie, the artist and his muse, playfully cross the untouched snow, symbolizing the ancient Utgard, the homeland of the Old Gods or Icegods, the archetypal powers of the Subconscious.

The artist and the muse are coming from the Soulworld or Asgard, moving towards the horizon, symbolizing the ancient Midgard, the Middle Region, where the human beings live.

The entire sequence is the image of the meaning of 'Living The Experience', namely to discover the timeless Threads of Destiny, the Norns, hidden in the depths of the Subconscious, and by the art of life to weave them into a living and everchanging image of time and space which grows into the house for the immortal Soul.

This is the destiny of the artist which he can only fulfill with the help of his muse, the Creatress of dreams and their magic.

The scene is the prevision of the essence and inner centre of the coming unfoldment of the story, an orphic story of Change of Consciousness of which the artist sings in his opening songs 'Weatherman', 'Crumbing' and 'Wait A Minute'.

Now comes the main title scene which represents the entry gate to the human world. This scene is created as a Silent-Movie-Style-Action gradually reversing the audience-situation of watching into a new dimension of being watched, mocked at and photographed by photonic beings from the movie.

LIVING THE EXPERIENCE

MICHEL MONTECROSSA'S
MIND-BLOWING OVERGROUND MUSICAL

Thus the spectator enters the world of 'Living The Experience' together with the artist searching for his muse hidden somewhere in the mysterious net of World-Energies, the Walgrind, of ancient times.

The opening sequence leads to the 'Prologue' showing the muse wondering through a world of imaginations, symbols, illusory appearances and soulless memories in search of the artist who alone can give new life and meaning to these disconnected fragments of Creative Imagination.

As if coming from the other shore of reality she hears the yearning and the anguish of the artist in the song 'Bygone Times'. She follows the sound of the haunting tune through the images of dreams, searching for the portals to reality, to find there the artist.

PART I & II:

The artist is looking for his muse in the many conflicting desires and illusions of the human beings to which they surrender in order to avoid living through their true identity, but he cannot find her in this Endzeit scenarios, the Ragnarök of the ancients, the Apocalypse.

More and more the bizarre fancy of this possessive world tries to entangle the artist, but he sticks to his search and turns to nature and her strength to clear his mind.

He tells of his quest through the songs: 'Better Do Not Remember', 'So Cold', 'Great Men', 'Next Turn', 'Out Of It', 'Please'.

Finally the maddening impact of no directions is exhausted when the artist understands that it is only love that can attract the muse and he suddenly is with her for the first time as a naked beauty and sings of this experience in the song 'As I'm Rolling Past A Tiny House'.

He understands the experience to be the Primary Inspiration given by her to see all with the eyes of love and thereby to gain Wisdom, Wide Compassion and Generosity.

As a result he begins to see behind all fleeting frontal appearances the Eternal Presence of Consciousness, Love and Joy. He sees the images of life and the world like letters of a Poem of Revelation, represented in the movie through words from Vedic Hymns superimposed on the flow of scenes.

LIVING THE EXPERIENCE

MICHEL MONTECROSSA'S
MIND-BLOWING OVERGROUND MUSICAL

Throughout this change of perception and understanding the artist reflects the experience in his songs: 'We Are Free', 'Glaubst Du Wirklich? (Do You Really Believe?)', 'Kommt Wieder Ihr Menschen (Come Again All Ye Men)' and 'Die Ahnung Der Zeiten (The Hunch Of Ages)'.

PART III:

Now comes the reversal of consciousness, the New World following the Ragnarök, where the inner creates the outer, where the apparent is seen from the essential, where the relative exists through the infinite, and it is now that the artist finds the muse.

A transformation takes place, a soul-fusion of artist with muse leading to the borderless embodiment of Love, expressed in 'Living The Experience' through a symphony of scenes and orchestral music and the profound flair of Insight, Harmony and Beauty: a Cosmic Building created by sound and light, the Walhalla of the ancients, the City of God of the future where Soul and Nature, Spirit and Matter are one.

The artist here does not sing with words but with pure sound of the union with his muse. And the secret of this finding is echoed in the chantlike message of the french mystic Mira Alfassa 'Le Chemin Parfait - The Perfect Way', which is also the title of the symphonic parts of 'Living The Experience'.

PART IV & ENDTITLES:

Finally the circle of 'Living The Experience' is completed in the birth of a new child, the revelation of the ever renewed Mystery of Life, which is also the mystery of the muse of which the artist tells with his song 'Natural Queen'.

MICHEL MONTECROSSA UNPLUGGED AT THE CARLTON HOTEL, NEW YORK 12.2.1994

"We were in New York", tells Michel Montecrossa, "for the shooting of sequences for the 'Reality Rocker' Movie-Series. It was the intense experience of a flood of inspiration and creative energy condensed into a week or so of thrillingly poetic cinema work. We all were rocker, writer, musician, actor, movie maker, director and producer in one person, constantly changing inner and outer perspectives. In the middle of this great experience new songs poured in. Parallel to the ongoing movie-action they mirrored the immense poetic feel that welled up from within during the interludes between shooting periods.

The songs came speedy with great directness, insight, drive, tenderness, power and delicacy. They were the fluid mirror through which you could go and touch the unexpected, the centering, the well of inspiration for a new day and new intensities that flowed into the movie making.

On 12th February I played all these songs in one take just before shooting of the Reality Rocker movie continued."

The Songs: 'Foreign Land Ballad', 'Weeping Man On A Bench', 'Purple Curtain, Purple Pain', 'Leather Outfit Lady', 'Out Of Passion', 'Today's Poem', 'Any Love Can Be', 'Changing Real', 'Wayside Line', 'Rock 'n' Roll Girl', 'Diesel Train', 'I Kiss You Good-Bye', 'Poem Of Evening's Last-Card Game', 'On One Summer's Morn', 'On The Grounds Of Fire', 'When I Think Of Your Tomorrow', 'Oh Lord, I'm Just A Rolling Stone', 'Time For Love'

MEDITATIONS ON SAVITRI

THE ORIGINAL DVD-SERIES IN 12 PARTS AUTHORIZED BY THE MOTHER PRODUCED BY FILMAUR MULTIMEDIA, GERMANY DIRECTED AND CREATED BY MICHEL MONTECROSSA UNDER THE GUIDANCE AND ON COMMISSION OF MIRA ALFASSA – THE MOTHER.

THE ORIGINAL PRODUCTION
BLESSED AND AUTHORIZED
BY THE MOTHER

Savitri is Sri Aurobindo's major work and most important introduction to his integral yoga and realisation.

The 'Meditations on Savitri' series visualizes Savitri in 12 parts through images, painted by Huta Hindocha, on the basis of original drawings and detailed instructions by The Mother.

The 'Meditations on Savitri' movies present all images together with recitations from Savitri spoken by The Mother and accompanied by her own organ music.

The 'Meditations on Savitri' series was produced and directed by Michel Montecrossa on commission and with the special blessings of The Mother.

MEDITATIONS ON SAVITRI

THE ORIGINAL DVD-SERIES IN 12 PARTS AUTHORIZED BY THE MOTHER PRODUCED BY FILMAUR MULTIMEDIA, GERMANY DIRECTED AND CREATED BY MICHEL MONTECROSSA UNDER THE GUIDANCE AND ON COMMISSION OF MIRA ALFASSA – THE MOTHER.

• The authorized 'Meditations on Savitri' DVD-Series in twelve parts is available as complete set or each part separately in digitally remastered high quality.

• The 'Meditations on Savitri' DVD-Series, produced by Filmaur Multimedia, Germany, is the only 'Meditations on Savitri' movie production legitimized by The Mother, showing the Savitri images together with The Mother's original recitations and her music. It was initiated and authorized by herself during her lifetime and created according to her instructions by Michel Montecrossa.

• On 24th April 1972 The Mother entrusted the artist and movie maker Michel Montecrossa (Michel is the spiritual name The Mother gave to him) with the work of establishing Filmaur Multimedia in Germany for preserving, restoring and releasing film-, image- and soundmaterial of herself and Sri Aurobindo's work. The name Filmaur, given by The Mother, is a combination of 'film' and 'aur', the word 'aur' meaning the 'Divine Light'.

• Soon afterwards The mother asked Michel to produce the 'Meditations on Savitri' movie series according to her instructions. She gave him special blessings for the accomplishment of this work and her advices which he faithfully took as guiding lines for the entire production.

• The 'Meditations on Savitri' DVD-Series shows in digital widescreen brilliancy and dolby digital stereo sound The Mother's only authentic and by herself with her special blessings authorized vision of Sri Aurobindo's great epic poem Savitri in twelve parts as movie series.

• The 'Meditations on Savitri' movies are directed and created by Michel Montecrossa on commission of The Mother on the basis of the Savitri images which she created together with the painter Huta Hindocha. The soundtrack features her original recitations of the corresponding text passages from Sri Aurobindo's 'Savitri' and her music.

• The 'Meditations on Savitri' DVD-Series, produced by Filmaur Multimedia, Germany, thus gives every devotee and disciple of Sri Aurobindo and The Mother the great and invaluable opportunity to come into direct contact with The Mother's personally blessed and authorized vision and expression of the 'Meditations on Savitri' as a wonderfully uplifting movie series.

to Michel

with love

The Mother to Michel

and about the 'Meditations on Savitri' movie series:

"I want to give you special blessings for this work and will always guide you. It is my legacy for the world."

(Then The Mother went into a long trance and gave her special blessings to Michel, expressing her certainty that he will accomplish the work according to her vision, as she sees in him the soul and the talent for doing it. Later she said that she would like the Savitri movies to be in widescreen with stereo sound and brilliant colours so that they can be projected in big scale. For the 'Mediations on Savitri' movie series The Mother gave Michel and Filmaur Multimedia in Germany the unrestricted right to use all her Savitri recordings and music for producing and promoting the 'Meditations on Savitri' movie series. She explicitly wanted the work to be done and organized by Michel and Filmaur Multimedia, Germany and no other person or company.)

AUROVILLE ... TOWARDS BECOMING 1973 - 1976

AUROVILLE ... TOWARDS BECOMING 1973 - 1976

On 28th February 1968 Mira Alfassa – The Mother began in South India the Auroville project with the aim of creating a more mundane extension of the Sri Aurobindo Ashram in Pondicherry. She entrusted the movie artist Michel Montecrossa, who later founded on her behalf Mirapuri – the City of Peace and Futureman in Europe, Italy, with the documentation of the beginnings of Auroville. The following film shows the years 1973 - 1976 and the pioneering spirit of that time when Mira Alfassa was still living and helped to give the right direction. After her death on 17th November 1973 the original spirit prevailed for some years but began to change after 1976. The Auroville community split into various groups and bitter, increasingly violent conflicts eroded the original inspiration. By the 1980's the level of violence became so strong that the Indian government intervened, expropriated the project and changed it into a touristic government-controlled business, combined with educational and rural development endeavours.
